SEPTEMBER 11, 2001 CONSPIRACY EXPOSED – SOMETHING MORE TO BE REVEALED… (continued)

… Correspondence from the messages …

Understand up front, I made my position very clear to Senator Johnson, Rep Anna Paulina Luna and AG Pam Bondi. I have zero desire to be part of the event Sept 10, 11, 12 in Washington DC due to who got "micromanaged" on invitation and real experts intentionally excluded. Other than Curt and Erik Lawyer, the DC event is bereft of real "experts".

I would assist on 1 condition. Let me present the 40 page PowerPoint, which is now 41 pages and Clayton has a copy of it. (Richard Gage did read it and stated to me "learned a lot". Barbara kept feigning she was so busy she had not vetted it yet. There is nothing to vet on prior lawsuits, published statements and corporate registration facts.)

That PowerPoint has been the baseline for 3 video appearances on UK Column and 3 more with Dr. Hasan Zafar PhD of Lahore Pakistan. Dan Hanley is almost 100 % right that no radical Islamic males were involved in September 11, 2001 but there is 1 Kuwaiti named in our lawsuit from a family with a sordid history.

I recently sent a private email to Richard Gage that if I do not see a Hail Mary from him on September 10 to keep facts straight and coherent, he will not be called upon my our attorneys in the lawsuit to nail who did 9-11, why and what their real motive was in doing such a horrendous act.

Mike Zarzano, Chuck Fall and I will blow the walls down on what 9-11Truth really is.

On the morning of September 11, 2001, when I saw molten metal flowing out of a WTC tower, I knew what they had done to destroy 2 of the strongest towers ever built. On the next morning of September 12, 2001, I had an email with photos taken at the Pentagon attack site the day before. All components confirmed by me and others by end of 2004 to be a military jet designated A3 Skywarrior. Who sent those photos are now 2 retired US military officers who were there 9-11-2001. I do not reveal who they are because the Pentagon would probably take punitive actions against them.

I say that for three reasons. First, in Chapter 1 of my book "One Way Ticket to Crawford Texas" I was explaining why, as a well known Conservative Republican, I drew the line on the Bush - Cheney Admin, their lies, coverups and even capital markets fraud that was rampantly off the scale and off the rails. This is what I got permission to include, pages 12 and 13 from another "very smart Arkansan":

"Maybe it is because of Clinton and our many years of having to deal with his lies, deceit and obfuscations in Arkansas that we Arkansans know a liar when we see one. We Conservative Arkansans do not have to look at a horseshoe very long to be able to tell you that it is, in fact, a horseshoe. Most of us where I come from have no problems with what the definition of “is” is.

"It is not a pleasant thought, or one that's often discussed, but lies are at base coercive. Deceit is a form of control. More than a few philosophers have compared the coercive force of lies to the power of violence. So even if they are common, they are not as benign as people pretend. Lies undermine the value of information, each one leaving us less able to trust the truthfulness of what we hear. Lies are more subtle than guns, but as threats to personal freedom, they should be regarded as no less dangerous." Mara Leveritt in the Arkansas Times

I trust that readers can accept that the above applies to all lies, whether they come from the Left or the Right or anywhere else. They are not limited to political ideologies, nor are they benign regardless of which direction they come from to seduce or mislead us."

Later on in my book is a subject Curt and I could have long talks about in the meta data realm, Fusion, and why CIA did not want that system after they had put weeds in the garden to be found. I did not need meta data, Fusion or CIA to find the fraud and crimes I uncovered and wrote about in the book and many articles that are now "intentionally hard to find" thanks to the defendants we have named in our lawsuit.

"Chapter 8 - Planting Weeds in America's Rose Garden

If I were President of the United States, my foreign policy could be summed up in one sentence:
"I refuse to allow weeds to be planted just so we have to go weed the garden for the U.S. or U.S. allies that matter."

Further down on same page 323:
"I am a well-read person and many years ago came across a quote attributed to Marcus Aurelius that I have found very useful in my life:
Marcus Aurelius. ***Of each particular thing ask: What is it in itself ? What is its nature ?***

That quote was used in "Silence of the Lambs" when FBI Agent Clarice Starling met Dr. Hannibal Lechter. Our list of Defendants are truly 9-11 Lechter level monsters.

The Year 1999 is going to turn out to be just as important in proving the crime of September 11, 2001 as the date itself. First, FBI counterterrorism detected an illegal CIA - Saudi GDI operation in the USA to build a meta data field of "radical Islamic males attack US with commercial jets".
Second, CIA stops sharing crucial intelligence with FBI. Third, Curt and his group got Fusion done and everyone wanted it but the CIA.
Fourth, I met Bridas Corporation and started watching what in Hell was going on in the Caspian Basin and in Texas courts on $15 billion lawsuit Bridas v Unocal, Delta Oil, et al.

The first and second item pops up again when FBI counterterrorism is in back office of 9-11 Commission and Phillip Zelikow fires her for trying to go around him with major FBI and CIA information where the truth really is.

Secondly, I sent a "heads up" email to Richard Gage, Ted Walter and Barbara Honegger early yesterday their time that I had provided Mike Zarzano and Dan Hanley photographic evidence from the Pentagon regarding A3 Skywarrior and 3 photos that make it easy to prove that it was not a hijacked Boeing 767 that hit WTC 2. What hit WTC 2 was a **Boeing 737**, and is easy to prove in 3 ways.

Dan Hanley has spent most of this year trying to get the Richard Gage, et al and Ted and Piers, et al to wake up that they were not even close to being the first 9-11 Truth soldiers with boots on the ground, nor are they the "sole arbiters of truth".

Seems those 2 groups are miffed that Dan's entire 911 Pilot Whistleblowers are aligned with me and more from other groups are on the fence right now.

Dan Hanley and I have come to the conclusion that AE911Truth and IC911Justice are like a vicious junior high school clique and are along the lines of "we are the inventors of Truth Bread and if you want a slice of Truth Bread you must listen to us and no one else."

Richard Gage knows when I passed the professional architect license exam, I made the highest score in US history 1981-1982 in the three part exam in the AIA Gulf States Region. AE911Truth and IC911Truth act like I am a "Newbie" and know nothing compared to them. The opposite is true and regardless of time and efforts this year by Dan Hanley and myself, that Junior High School Clique is oblivious to the elephant of Truth staring them in the face and they are not teachable.

Jimmy Walter was running this on TV during 2003 and 2004 when it was absolutely clear the 9-11 Commission was a coverup. This was years before AE911Truth or IC911Justice even existed.

I woke up to an email exchange between Capt Dan Hanley and Aidan Monighan. Frankly, I had not heard of them until a friend sent me a link to a marathon video by Piers Robinson and 5 aerospace experts done September 10, 2024. Piers is not an aerospace expert and none of the other real experts got invited to the DC event.

My work on proving A3 Skywarrior and bunker buster missile is in Loose Change and Loose Chance Second Edition by Dylan Avery and Korey Rowe. After Jason Bermas and seriously discredited Alex Jones got involved in all Loose Change editions that followed, the Pentagon A3 matter was deleted.

I have an "unidentified insider" at AE911Truth and have had for years. I never saw any reason to team up with either AE911Truth or IC911Justice. It was Dan Hanley's idea to at least get them to team up after he read the 40 page PowerPoint. However, he has read 2 other documents I have not distributed to many people including Clayton. Those other 2 documents are generically titled "Trump Interrogatories" and "George Tenet Interrogatories".

I personally think those 2 (of 27 sets ready to go) are going to create a huge Constitutional crisis and several US government agencies and others will be in the deepest shit they have ever faced.

Dr. Hasan Zafar PhD, very smart man and interviewing a Word Salad Queen who thinks she is the Ultimate 9-11 Truth authority and an expert on nothing
https://www.youtube.com/watch?v=BhNyRaWVuR4&t=24s

PS: Clayton, your "Operation Gladio" expert and her group might be on our Zoom call. I personally think **9-11-2001 was an Operation Gladio war crime** against the USA. Ponder that.
